

Grossology: Join Mad Science on a journey to all things cool and gross about the human body! Make a squishy brain, play with a cup of mucus you make yourself, and help move food through your own Digester Inspector!

Crazy Chemistry Lab: Shake up a flask of fun in the lab as a junior chemist! Campers get to create solutions, explore atoms and molecules, and even take part in our famous Slime Olympics! Great take home projects each day like PH solution tubes, lab beakers, thermo cups, and much more! Don't miss this action packed camp!

Mad Science Madness: Join us on a crazy journey through some of our most fun and wacky classes! Turn marshmallows into atoms, make your own silly putty, and design a super-speedy race car. Every day is a new adventure in this awesome camp!

Chemistry and Biology BLAST! Explore chemistry and biology in this brand-new camp! Take a ride through cell city as we find out what cells are all about. Become an investigator for a day as you help solve a mysterious crime, where you might even get to make your own ice cream as a reward! Then, put on your goggles as we mix up some super silly lab concoctions. It will be a BLAST!

NASA: Journey Into Outer Space: From our Earth's atmosphere to the outer reaches of our solar system, this hands-on program for children ages 5-12 sends them on a quest for exploration! Comets, planets, stars and more are all waiting to be discovered. Learn about the four forces of flight, the challenges of space travel, and even participate in a rocket launch!

Nutty Nature: Explore nutty nature in this fun-filled camp. Learn about Bugs, Recycling, Birds, and more! Fun take-homes include bug houses, homemade paper, and your own pinecone birdfeeder.

Super Duper Science Sampler: Every day is a new day in this fun camp. One day, learn about machines and build your own spaghetti bridge. The next day, journey back in time to the days of the Dinosaurs, and even make your own dino tooth to take home! You'll never know what surprises await you next!

Little Green Thumbs: Let your little one's love of science grow with this fun camp! Campers will get to plant seeds in their own mini-garden, learn about butterflies and bugs, and have a blast becoming mini-scientists for a week! Campers must be potty-trained and bathroom independent.

Super Spy Academy: Mornings- The Mad Science Spy Academy is in session! Uncover the science involved in evidence gathering and analysis. Become a super sleuth and learn clever ways of performing tasks in this hands-on view of the science that spies use. From decoding messages to metal detectors and night vision, campers will have the opportunity to check out spy equipment and discover technology tools of detection!

Afternoons-Suspects, schematics and sleuths. Focus on the science of forensics in this hands-on look at a crime scene! Identify and collect evidence from fingerprints to tracks to trash! Recreate the scene of a crime using clues and detailed observations. Campers will use science to connect the dots and help sniff out the suspects in this hands-on investigation into the science of sleuthing!

Wild and Wacky Science: Have you ever wanted to know how sugar turns into cotton candy? Learn about the science of candy and more in this brand new camp! Watch light turn into rainbows, make a small plastic popper jump 10 feet, and create your own ooey gooey oobleck as we get our hands dirty with some wild and wacky science!

Register Today! Early Bird Pricing until April 14th, 2013.
